PROFILE SUMMARY

Aspiring Java Developer currently gaining hands-on experience in backend development through an internship. Working with Java, Spring Boot, REST APIs, and Microservices to build practical backend services. Previously developed full-stack projects using the MERN stack and have a solid foundation in frontend technologies like React.js, JavaScript (ES6+), HTML5, and CSS3. Focused on learning industry-level practices and preparing for a full-time role in software development.

EDUCATION

Bachelor of Engineering (B.E), Information Technology

2019 - 2023

Nagpur Institute of Technology

INTERNSHIP EXPERIENCE

JAVA DEVELOPER TRAINEE

HulkHire Tech | (Remote)

Jun 2025 – Present

- Learning and contributing to a Payment Integration System using Java, Spring Boot, and Microservices architecture.
- Gaining hands-on knowledge of breaking down a monolithic application into independent services like payment-validation and processing services.
- Exploring how services communicate through REST APIs, basic WebClient usage, and an introduction to asynchronous messaging using JMS.

PROJECTS

STUDYNOTION – Full-Stack EdTech Platform

Tech Stack: MongoDB, Express.js, React.js, Node.js, Razorpay API

- Developed a comprehensive e-learning platform allowing course creation, enrollment, payments, and ratings.
- Built secure user authentication and role-based access system.
- Integrated payment gateway (Razorpay API) and media uploads (Cloudinary).
- Implemented responsive frontend with ReactJS and TailwindCSS.
- Source Code : https://github.com/pallavibhasme/StudyNotion_.git

TECHNICAL SKILLS

Languages: Python, C++, Java, SQL

Frontend: HTML5, CSS3, JavaScript, ReactJS, Tailwind CSS, Responsive Design

Backend: Node.js, Spring Boot, REST API

Databases: MongoDB, MySQL

Tools & Technologies: GitHub, Git, Postman, Visual Studio Code

CERTIFICATION

- **MERN Stack Development**
- **Object Oriented Thinking in Python**
